CAREER OBJECTIVE

A highly motivated and hardworking individual looking for a responsible role in a reputable organization. To get an opportunity where I can make the best of my potential and contribute to the organization's growth.

PROJECTS

○ Doctor Appointment Booking System[2024]

Developed a Doctor Appointment Booking System Web App using the MERN stack, enabling users to book, manage, and track medical appointments seamlessly. Integrated secure authentication, real-time notifications, and an intuitive interface for improved patient and doctor interactions.

Teck - Stacks: MERN Stack, Tailwind CSS

○ Gemini - Clone Web App [2023]

The Gemini AI Clone project leverages React and JavaScript to create an interactive, AI-powered application that simulates the behavior and responses of a conversational AI. It showcases real-time data handling and dynamic UI updates, providing a seamless user experience.

Teck - Stacks: React JS, Node.js, JavaScript, CSS

○ Personal Portfolio Website [2022]

The "Professional Portfolio" website displays work and personal narrative, enhancing networking. Using HTML, CSS, and JavaScript, it presents projects, skills, and contact information for career advancement and skill development, fostering meaningful connections.

Teck - Stacks: HTML, CSS, JavaScript, Bootstrap

CERTIFICATIONS

- **React JS** course completion Certificate by [Infosys Springboard] in November 2022.
- **Node.js** course completion Certificate by [Infosys Springboard] in November 2022.
